

5 February 2010

Dear Parents,

The *AP Statistics* and *AP Calculus AB/BC* classes would like to ask for your support. Every year the *AP* exams are administered in early May. We find that we are pressed for time and could use more time to prepare. With your permission, we are asking students to attend Saturday sessions which we will use to take practice *AP* exams. The sessions will be held at Fairview High School. Students who will be taking the *AP* exams are encouraged to attend these sessions. Below is a schedule of this year's Saturday sessions:

Saturday April 10th from 8:30 a.m. to approximately 12:30 p.m.

Saturday April 17<sup>th</sup> from 8:30 a.m. to approximately 12:30 p.m.

In order to compensate students for the eight hours they spent in class on Saturdays, their *AP* Mathematics class will end on May 8<sup>th</sup>. This means that the period they had math would become a free period for the rest of the school year. We understand that students also have other obligations on Saturday. These sessions are NOT mandatory. If your child can not attend any Saturday sessions, then they will end their *AP* Mathematics class on May 21<sup>st</sup>. If you have any questions contact Del Ebadi at [del.ebadi@bvsd.org](mailto:del.ebadi@bvsd.org) or Denise McCleary at [denise.mccleary@bvsd.org](mailto:denise.mccleary@bvsd.org)

By signing this form, you agree to the Saturday practice sessions and understand that your student's *AP* Mathematics class would end on May 7<sup>th</sup> and the period they had class would become a free period for the remainder of the school year. Thank you very much for your help and support.

Sincerely,

Del Ebadi and Denise McCleary

Fairview High School *AP* Mathematics Teachers
