

The Power Rule

From: Calculus the Musical!

[In the style of: Petula Clark's – "Downtown"]

When you have A times an X to the B

You know you always use

Power Rule!

Look A B X to the B minus one

Is the derivative

Power Rule!

Derivatives of constants are always a slope of zero

Square Root is the one half power

You have nothing to fear, oh, how can you lose

For all polynomials you can forget all your troubles

'Cause everyone knows you use

Power Rule

One over X is just

Power Rule

X to the minus one

Power Rule

For polynomials, Foo!

La-la-la-... Power Rule

La-la-la-... Power Rule

Derivatives of constants are always a slope of zero

Square Root is the one half power

You have nothing to fear, oh, elephant shoes

For all polynomials you can forget all your troubles

'Cause everyone knows you use

Power Rule! One over X is just, Power Rule

X to the minus one, Power Rule!

There is no Dana, just Zool!
